Sunboard 3/8" x 5/8" Gold Pex Panel **Resilient Design @ Highly Affordable Price**

Good Quality UNIQUE Design Sunboard panel – 3/8" Pex (Board Thickness – 5/8")

(5/8" x 24" x 48") Combi Board

(5/8" x 24" x 48") Blank

- **5/8" Thick - designed for 3/8" Pex pipe, Aluminum & Paper coated Layers**
- **Single Combi Board** - 2 ft x 4 ft , allows straight runs, 180 & 90 deg. turns
- Grooves are specially machined so Tubing is **SNAPPED into groove and STAY!**
 - It is NOT a straight channel, where tube is being deflected to OBLONG shape
 - NO tube pop-ups, NO Silicone to hold tube in place
- Resilient **Particle board**
 - Water resistant, approved for Indoor use
- Product is manufactured locally – Encouraging OUR economy!
- Board is coated with PAPER
 - No need to buy and install Rosin paper on top of the boards
 - **VISIBLE** pipe when installing Hardwood Planks – Avoid Installation Damages!
 - Minimize Expansion/Contraction Noise
 - Contact between hardwood planks and floor panels – Makes NO NOISE!

- Sunboard products are laminated with Aluminum layer and **Sunpaper slit at channels**. The Sunpaper replaces the rosin paper when installed with hardwood floor. This reduces the noise created when Pex tubing expands and contracts, as well as eliminating noise created between the Sunboard and the hardwood floor planks
- Sunboard Pex panel tubing - 8" on-centers
